INVEST IN A HAPPIER GUT BECAUSE YOU WANT TO, THROUGH LEARNING HOW TO PICK YOUR PROBIOTIC WITH CONFIDENCE.

Let's get straight to it: a probiotic is probably the first thing you think of when it comes to supporting your gut health. It's all over social media, everyone and their dog seems to have a customized blend specifically for their gut, and you're thinking "well, I could use one of those I just have no idea where to start."

If you're searching for:

- more predictable trips to the toilet
- a solution to the constant bloating and gas after *every* meal
- the way to finally banish that "tired of being tired" feeling
- a fail- safe way to support your overall health, because you aren't getting any younger.

I see you. This quick guide was **made for you.** You're going to learn how to pick a probiotic with confidence and ease (and less time wasted scrolling on social media).

DON'T PANIC!!

4 Steps To Picking Your Probiotic

1 CFUs

2 Get Specific

3 Storage

4 Pay Attention
To Timing

LET'S BREAK IT DOWN,

Going Broke Isn't Necessary

CFUs

- 1 Probiotics contain Colony Forming Units (CFUs) that need to survive the trip to your gut. CFUs at time of manufacture aren't taking into account the amount of live culture that has died in storage. Look for CFUs provided by each strain, and make sure that number matches up to the overall count advertised.

Get Specific

- 2 When you look at the ingredients list of your probiotic, you need to see the genus, species, and strain because different strains within the same species can have different benefits. If you're looking to address a specific concern, I'm sharing some of the most researched strains of bacteria that support your needs on the next page.

Storage

- 3 Pay attention to how your probiotic needs to be stored. If you're using a probiotic whilst you travel, a probiotic that needs to be refrigerated might not be as useful as one that can be stored at room temp.

Pay Attention To Timing

- 4 Some probiotics don't get specific as to when you should take them- others do. Read the product label to make sure you're taking your probiotic at the best time suggested.

THESE ARE THE STRAINS YOU'RE LOOKING FOR, TO GET THE RESULTS YOU WANT.

FOR MORE ENERGY

When you need overall support for streamlined digestion to meet your day's demands

- *Lactobacillus acidophilus*
- *Lactococcus lactis*
- *Bifidobacterium breve* Rosell-70

FOR BETTER IMMUNITY

Supporting your body's defense system is much easier when your gut is well supported too.

- *Lactobacillus paracasei* Casei 431
- *Bifidobacterium animalis*
- *Bifidobacterium longum*

FOR HAPPIER SKIN

Skin breakouts/ adult acne can often be a sign that something's awry in your gut.

- *Lactobacillus Rhamnosus* GG
- *Streptococcus Thermophiles*
- *Lactobacillus Acidophilus*

FOR WHEN YOU'RE ON ANTIBIOTICS

These strains benefit general well being as antibiotics

- *Bacillus coagulans* Unique IS-2
- *Lactobacillus rhamnosus*
- *Bifidobacterium lactis* Lafti B94

WITH ALL OF THAT IN MIND, ALL YOU HAVE TO DO IS **Stop scrolling!**

You know what to look for, you know what symptoms you want to address, and you know how to get the most bang for your buck. The doom scrolling through endless posts about curing your gut health for good, and banishing belly bloat for forever only adds to your hesitation.

HI, I'M BRONWYN BARRY

I coach high performers to stop surviving and start thriving. Through a proven five pillar- process, you can stop sacrificing your self for your success (you and I both know it's not going to work out well that way).

At one point, I felt control of my health slipping out of my hands. I didn't know what to eat; I was SO tired while working in a job I loved; weight was creeping onto my waistline, and so I tried a probiotic... that **didn't work!** I don't know if you've been there, but what I can tell you is this: I was frustrated, tired, uncomfortable, and I wanted answers. I felt like I was in a spiral of wasting money and time on something that was “supposed” to help me but wasn't.

I trialled a lot, and I learned a lot. I've shared my learnings (and training in nutritional therapy) with countless clients who have turned their health around without the costly time wasting.

You deserve that too.

CLIENT SUCCESS TO BE CELEBRATED!

ASHLEY- FITNESS INSTRUCTOR

I felt like I didn't have a lot of direction with my diet and wasn't feeling confident about my food choices. I also wasn't sure about lifting weights...My needs were addressed and more! Now I'm lifting heavy, I don't experience any digestive discomfort (or if I do, I know why), and I feel a lot more self-aware of all the factors that impact my overall well-being.

EMS- HEADLINER ACT

The level of knowledge and expertise that Bronwyn has with regards to all things health, fitness and nutrition is beyond what I expected and has been so helpful in educating me and helping me to identify my own personal dietary and fitness needs and how to get the best out of my body.

BETSY- MARKETING STRATEGIST

I was unmotivated, constantly tired, and didn't feel like I was in control of my body. My coach was realistic about changes that could be made, which helped me realize how realistic I was! I'm more mindful of my choices and wished I learned everything she taught me years ago!
